

Transport and logistics services

INTERMOVE
LOGISTICS

— Company InterMove

All services in one place

InterMove specializes in providing transportation services at home and abroad. We have extensive experience in forwarding, organization of transport processes and logistics, thanks to which we are a company with an established and stable position in the TSL services market. Since the beginning of our activity, we have been systematically working to become a leader open to changes in the market.

We work hard to achieve joint successes

Our goal is to build long-term, sustainable relationships with our clients based on mutual trust. Thanks to our extensive experience, excellent staff and the use of state-of-the-art solutions, we are able to make strategic decisions that ensure we consistently maintain the highest quality of our services.

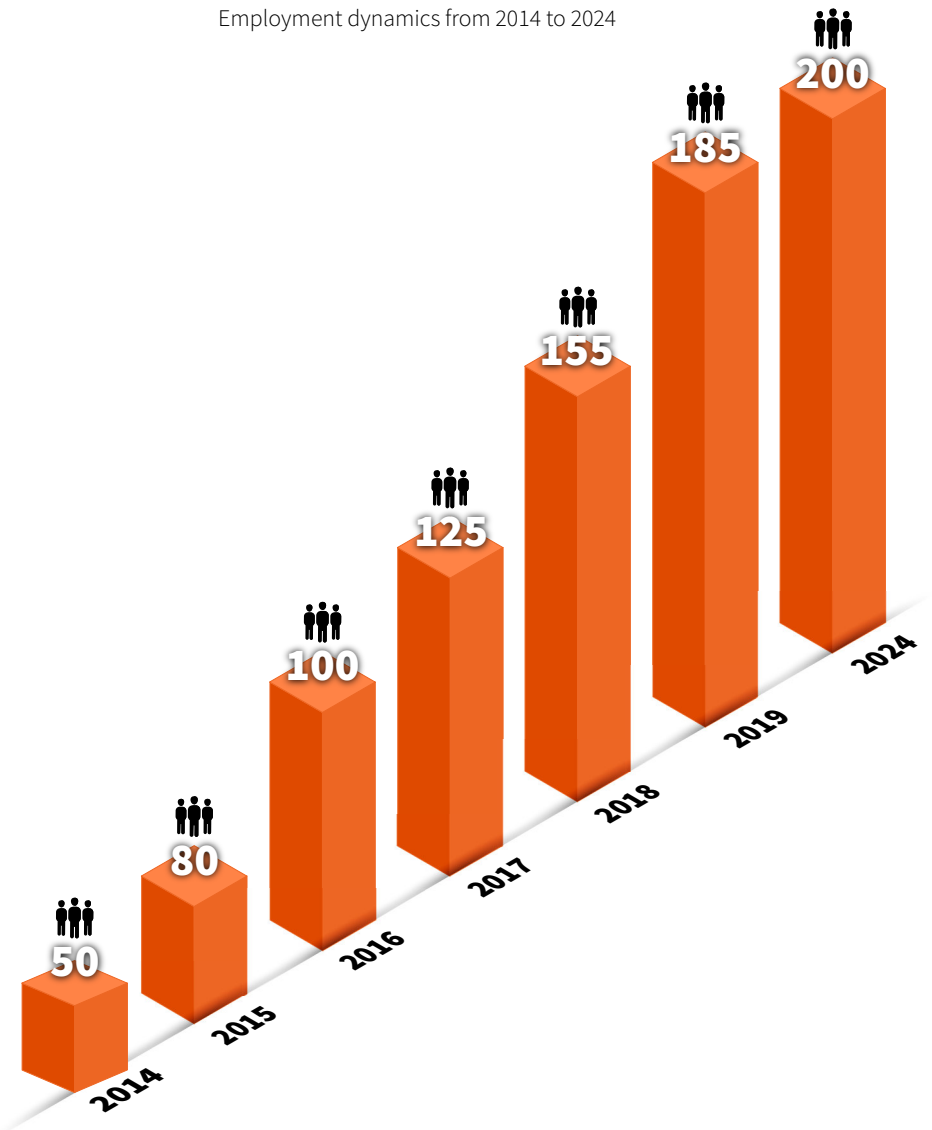

INTERMOVE
LOGISTI

— Company InterMove

Dynamic development the key to success

The increase in demand for transport and logistics services and the need to constantly improve their quality gives us the opportunity for continuous and sustainable development. From year to year our team is populated by more specialists who are full of passion and commitment, allowing us to offer the highest level of service.

Employment dynamics from 2014 to 2024

— Transport

Extensive fleet ready for action

With a wide range of vehicles, we are able to transport almost any type of cargo. Our fleet includes dozens of our own vehicles with a total payload ranging from 3.5T (43 m3) to 24T (120 m3) We put at the disposal of our customers:

- standard semi-trailers
- mega semi-trailers
- volumetric sets 120 m3
- silo type semi-trailers 60m3
- tipper type semi-trailers 50m3
- solo type vehicles with a capacity of 18T equipped with self-unloading elevators and pallet trucks

Our entire fleet is refreshed annually, so we meet current and stringent emission standards and our drivers work in very friendly conditions.

— Transport

Loose materials is a standard for us

Our company specializes in transporting bulk materials and products of plant and animal origin. We have a veterinary number and meet the requirements of categories 1, 2 and 3 for Animal Byproducts (UPPZ), which allows us to transport a variety of goods in accordance with current safety standards.

We have a specialized fleet, including silos and dump trucks, which allows us to transport safely and efficiently:

- **On silos:** pellets, chalk, calcium dihydrogen phosphate
- **On dump trucks:** bulk materials and agricultural products such as potatoes, corn, cereals, soybean meal

With experience and a modern fleet, we guarantee the highest quality of transportation services.

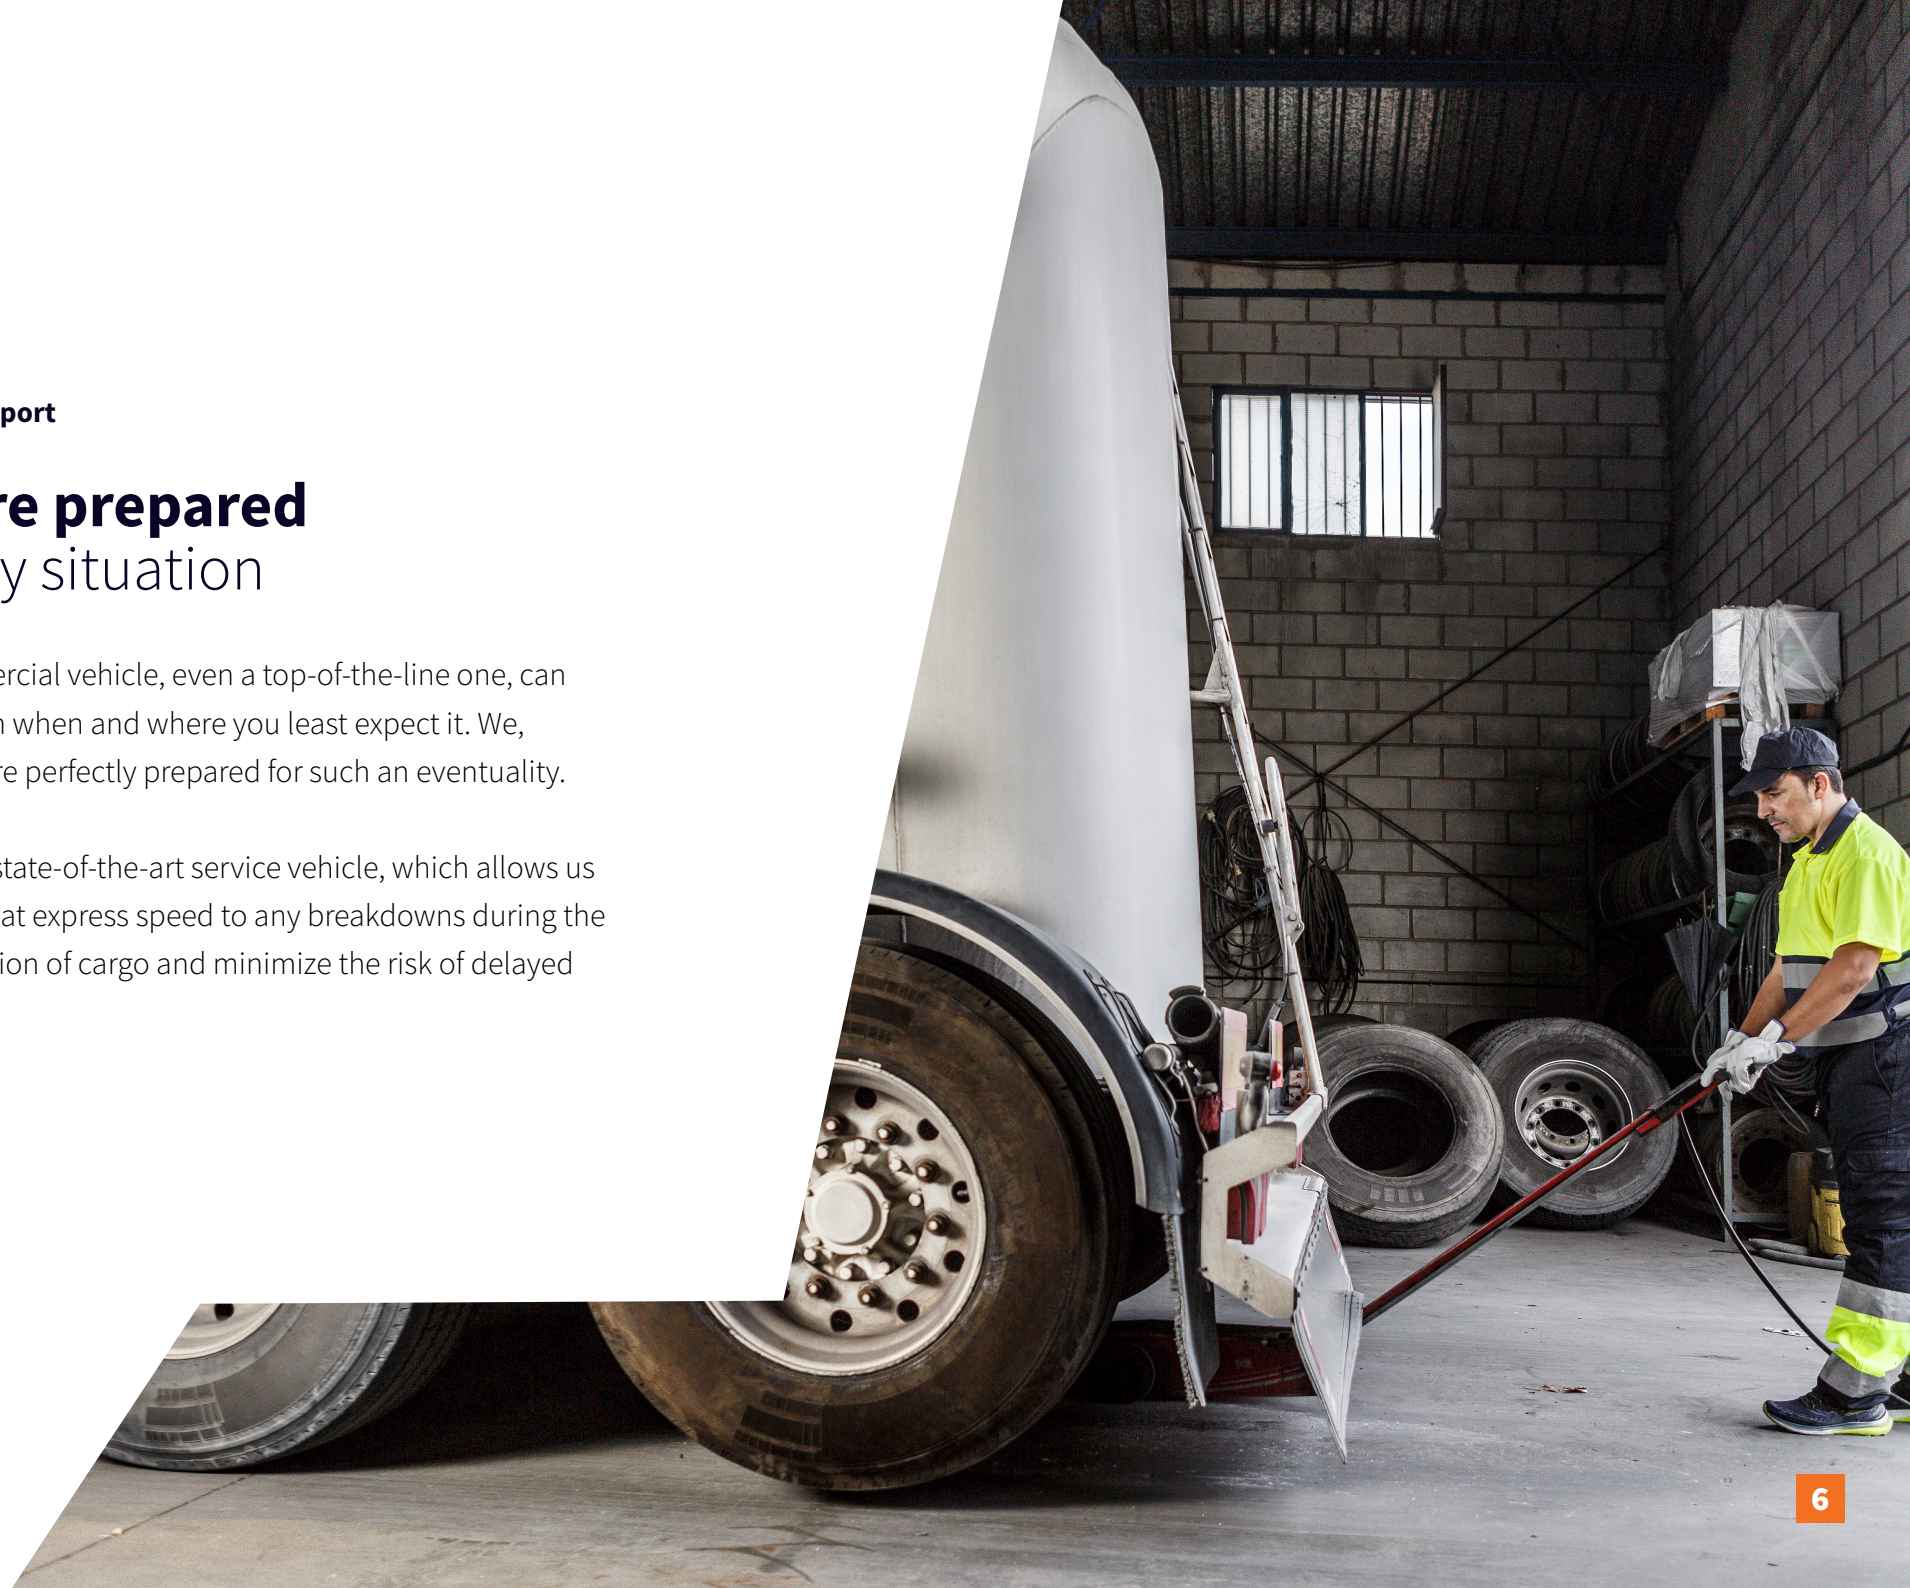

— Transport

We are prepared for any situation

Any commercial vehicle, even a top-of-the-line one, can break down when and where you least expect it. We, however, are perfectly prepared for such an eventuality.

We have a state-of-the-art service vehicle, which allows us to respond at express speed to any breakdowns during the transportation of cargo and minimize the risk of delayed delivery.

— Transport

Greater security thanks to monitoring

All vehicles are equipped with a comprehensive telematics system of the Belgian company Trimble, which allows us to continuously and directly monitor the implementation of transport and ensure greater security of the transported cargo.

Thanks to this, you can be sure that your cargo will be delivered to the place quickly and efficiently, and in case of unexpected situations, it allows us to take quick action to minimize the risk of transport delay.

INTERMOVE

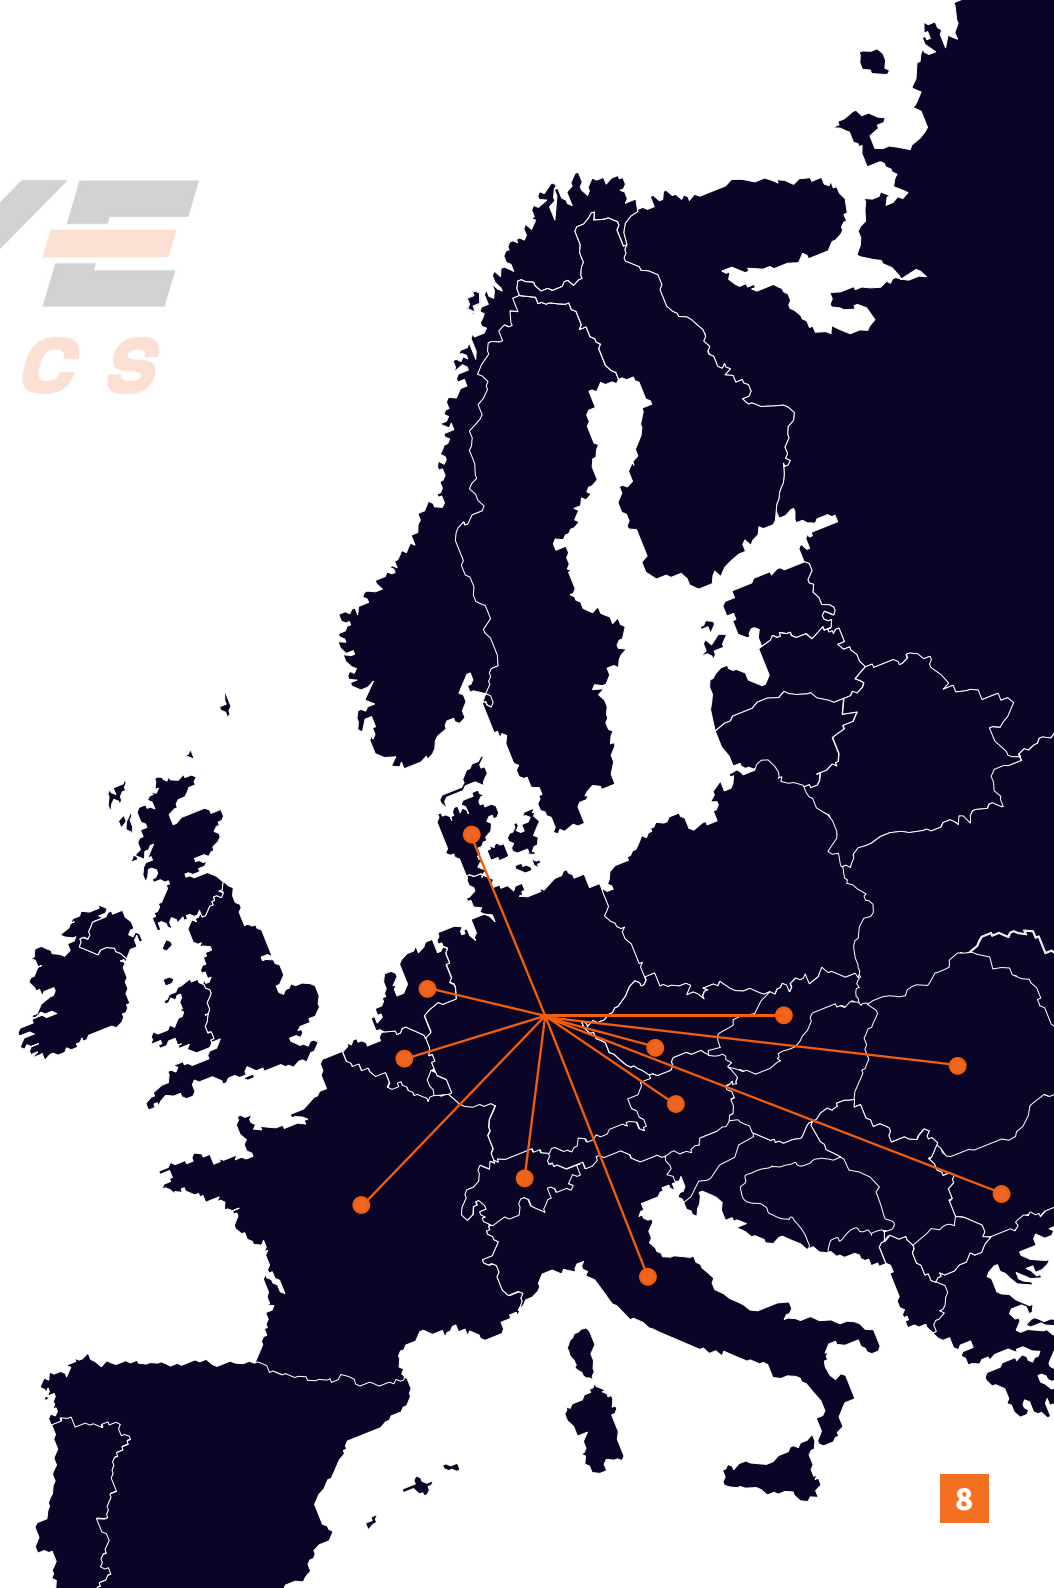

LOGISTICS

— Transport

Main directions activities

InterMove's main business profile is transport wheeled transport and forwarding within the European Union. We serve most of the directions of this region, however, the vast majority of services are carried out in Germany, the Netherlands, France, Belgium, Switzerland, Austria, Denmark and Italy.

In addition, we also reach the Czech Republic, Slovakia, Slovenia Romania and Bulgaria.

— Logistics

Entrust your services in good hands

In order to compete effectively in the market you need to skillfully plan, execute and control the flow of raw materials, materials and finished goods. Thanks to the experience we have gained over many years of activity, we can carry out logistics services in full professional manner.

— Logistics

Full and professional order handling

Thanks to the experience we have gained over many years of activity, we can carry out logistics services in full professional manner.

Modern solutions allow us to store a variety of goods. Our goal is to carry out logistics orders in such a way that we always prepare the right product, in the right quantity, for the right recipient. All this, of course, at the right time.

This allows our contractors to optimize the cost of storage and preparation of goods for shipment. At the same time, thanks to high flexibility we are able to adapt to almost any type of order.
